Work Experience

Freelance Web Developer

Justinturney.com - Forsyth, MO

September 2019 to Present

I develop and publish web apps using a variety of technologies.

IT Systems Technician

Deerland Enzymes, Inc - Forsyth, MO

April 2019 to Present

IT sysadmin, devops. I write internal web apps to increase productivity and efficiency for several departments.

Owner/Operator

Uberleet Technologies - Forsyth, MO

August 2012 to Present

Currently I am self employed as a computer technician. My duties range from PC repair and malware removal to home and small business networking solutions.

Accomplishments

- Started business in 2012
- Created my own website
- Used limited resources efficiently to grow customer base

Network Engineer

VanderNet Technology Services

August 2016 to April 2019

I provide desktop, server, network, VoIP, and data center support for multiple customers in the Branson and Northwest Arkansas area. We are also an ISP and I am heavily involved in planning and deploying new network connections.

Desktop operating systems supported: Windows (XP, Vista, 7, 8, 8.1, 10) Mac OS X, Linux (Ubuntu, Fedora, Kali, etc.)

Desktop software supported: Microsoft Office (2007, 2010, 2013, 2016, O365), Quickbooks, VPN clients, all major web browsers and industry specific software for hotels, tourist attractions, local and state government, and emergency services, etc.

Server operating systems supported: Windows (2008, 2012, 2016) Linux (Ubuntu Server, Fedora/Red Hat), and Mac OS X Server

Server software supported: SSH, PHP, Microsoft SQL, MySQL, Apache, Observing, Unifi, mFi, 3CX, SAMBA, Print servers, VPN servers, etc.

Data center software/skills: VMware ESXi (versions 5 - 6.5) KVM in Ubuntu Server. I have set up and configured web servers using LAMP stack in Debian Linux. I have written several Windows Powershell, batch, and bash scripts to automate software installation and backups. I have created and mounted iSCSI targets and LUNs in Linux and Windows environments. I use Telnet, SSH, VNC, and TeamViewer regularly for remote access.

Network equipment supported: Cisco routers and switches, Ubiquiti routers, switches, and wireless radios. (2.4Ghz, 5Ghz, 24Ghz PTP and PTMP) for Sanderling, a WISP.

VoIP experience: I designed and built several 3CX PBX servers in Windows and Linux, both locally deployed and cloud deployed. I have programmed Yealink, Cisco, Anvil, and Grandstream phones as well as Cisco and Grandstream ATAs. I have ported phone numbers between carriers as well.

I am responsible for starting a new security and access control division in the company. I build and test security and access control systems, then train technicians on installation.

Front Desk Agent/Tech Support

Myer Development Company - Branson, MO

February 2016 to August 2016

Responsibilities

Check guests in and out of the hotel, balance cash drawer, provide technical support to multiple properties.

Accomplishments

Highest sales of any front desk agent for the month of April 2016.

Skills Used

Customer service, cash handling, conflict resolution.

Personal Technology Expert

Support.com - Redwood City, CA

January 2015 to December 2015

Provided remote tech support from home for Comcast's Xfinity home security system, also provided help desk services for Cox Communications' Cox tech Solutions.

Accomplishments

- Maintained top ratings in quality assurance metrics throughout my employment
- Was one of only 2 employees selected from my department for an internal promotion to help desk services

Front Desk Agent

Patton Hospitality Management - Branson, MO

May 2014 to November 2015

Made reservations and checked in guests, sold tickets to shows, handled cash drops.

Front Desk Manager

KC Hospitality - Branson, MO
